Expansion of the United States Navy by 20 per cent was proposed to Congress recently by President Roosevelt as necessary to bolster our national defense program in view of rapid rearmament by other world powers. LONDON, March 14.-Prime Minister Chamberlain today plainly warned Germany that Britain would expand her vast rearmament program reply to Hitler's earlier message that to match force with force in answer to Reichsfuehrer Hitler's absorption of Austria

However, the prime minister, in a vital statement of policy before a House of Commons packed and tense, independent Austria to indorsement did not promise British backing to France if she should go to war to save Czechoslovakia from pan-Germanism

Mr. Chamberlain said Czechoslovakia had been in consultation with Austria as essential to the safety of Britain, but he refused to discuss what Britain would do to guard the Central European republic for whose 3,500,000 Sudeten Germans Hitler had proclaimed himself protector.

Mr. Chamberlain bluntly rejected a German statement that Britain had no right to interest herself in Austrian independence, the German answer to British protests over the annexation. Mr. Chamberlain insisted Britain 'must always be interested in de-

velopments in Central Europe." Baron Konstantin von Neurath, head of Germany's new secret council, had written "the British government is not within its right in claiming the role of protector of Austria."

Public Taken Behind Scenes Of Roosevelt's Press Parleys

Transcripts Released at White House Reveal How Many Projects of New Deal Were Started.

President Roosevelt today offered the general public a few intimate glimpses behind the scenes at some of the more memorable press conferences of the last five years, and thereby gave them an insight into the germination and development of many New Deal projects-from the illstarred N. R. A. to the Supreme Court enlargement plan. "How It All Began" would be an appropriate title for a sheaf of sten-
